

**The Refrigerator/Freezer Recycling Program promotes responsible recycling of refrigerators and freezers in New Jersey and offers a \$50 incentive. Approximately 95% of each appliance is recycled. Consider these important facts:**

- On average a newer refrigerator or freezer consumes 1,000 fewer kWh annually than a refrigerator or freezer manufactured before 1990.
- Recycling 20,000 older refrigerators or freezers results in energy savings equal to the amount of power used in approximately 1,400 homes or removing 40,000 cars from the road for one year.
- Find out how much your refrigerator or freezer costs to operate. You can save up to \$150 a year on energy costs!

**Recycling your old refrigerator/freezer is easy, and you can earn money too. It's simple.**

## Here's how...

- To arrange for a free pick up of your old refrigerator/freezer call **877-270-3520** or schedule a pick-up online.

## Promotion Dates

**For Atlantic City Electric, JCP&L, PSE&G and Rockland residential electric customers:** This offer is valid through December 31, 2012.

## Rebate Levels

This program promotes responsible recycling of refrigerators and freezers in New Jersey and offers a **\$50 incentive**.

Incentives are processed within 90-120 days.

## Eligible Equipment

- Eligible appliances include refrigerators and freezers between 10 and 30 cubic feet in size. The unit must be operational at the time of pick up.
- Refrigerator or freezer unit must be owned by the customer. You may recycle a maximum of two units per year.
- You must provide clear and safe access to your appliance(s) for the removal team. Personnel will not risk injury, or be able to move personal effects, or otherwise modify your home (e.g., remove door or railings) to remove the unit.
- An adult, 18 years of age or older, must be present to sign the pick-up release form.

## Application Forms

To arrange for a free pick up of your old refrigerator/freezer call **877-270-3520** or schedule a pick-up online. There is no application for this program.

## Additional Opportunities to Save

There are rebates available on additional energy-efficient equipment, such as heating and cooling equipment.
