A notice to customers who use electrically operated

LIFE-SUPPORT EQUIPMENT

If any member of your household depends on electrically operated life-support equipment, please let us know by calling **1-800-662-3115**. Jersey Central Power & Light (JCP&L) will send you a form that must be completed and signed by your physician every year to verify that you have life-support equipment.

When we receive your completed form, we will add your name to our Critical Care list. The list will be used during a power outage to contact all Critical Care Customers by telephone if the outage may affect their electric service for more than 24 hours. In addition, the list will be provided to county and municipal Offices of Emergency Management.

There is no charge for this service.

As the spring thunderstorm season approaches, it's also important that life-support customers have a contingency plan, such as a battery backup.

If you have any questions about our Critical Customer Care Program services, or to sign up, please call **1-800-662-3115**.

Attention customers who rely on

ELECTRICALLY OPERATED PRIVATE WELLS FOR WATER

Does your home or business depend on an electrically operated private well for water? JCP&L maintains a list of customers with private wells. These customers are contacted by telephone if a power outage is expected to affect their electric service for more than 24 hours – in which case, they'll be advised of locations where water and ice are available. In addition, the list is provided to county and municipal Offices of Emergency Management.

There is no charge for this service.
