Ms. Neibart remarked that last year the volunteer solicitation was included in one of the mailings. Ms. Neibart asked if once the improvements were expensed if there would be a corresponding resolution. Ms. Fornaro responded that it would depend on the thresholds, and generally anything over $40,000 is over the bid threshold so if it is awarded through a state contract or county coop there will be a resolution. **DISCUSSION**

Historic Preservation Committee ordinance request

Mayor Gisser explained that the Historic Preservation Committee requested that the Township Committee review their request, which was that they be notified when there is an expectation or issuance of a building permit to demolish a structure.

**Ms. Vanessa Brown,** Chair of the Historic Preservation Committee, introduced the committee members: Patricia Zimmerman, Melissa Saharko

Ms. Brown pointed out to the committee that meeting minutes of February 27th, 2018 show that the Township committee members approved the request of the HPC to increase membership from 7 to 9 and make all applications available to the HPC. She said she was perplexed as to why this request to review demolition permits needed to be reviewed and approved again, when the HPC felt that by virtue of the approved ordinance on February 27, 2018, this request was already approved. Ms. Brown added that the HPC is an advisory committee whose major task is to preserve that township history is not destroyed. She said that the word ‘demolition’ was part of the language that she used when presenting this request. She hoped that the committee would reconsider this issue. Ms. Brown wanted to make it clear to the committee that the HPC was in favor of respecting homeowner property rights but they hope to educate homeowners as to the historical nature of their home, which will help them make choices. The HPC members each gave examples of how their efforts to advise residents have benefited both the homeowner and the township. Ms. Zimmerman explained that currently the HPC receives notification from the Planning and Zoning boards and that they are able to help the homeowner understand terms such as setbacks which most older homes do not meet. She added that one of the Master Plan’s goals was to preserve the rural historical character of the township.

Ms. Duarte mentioned that she reviewed the videotape of the meeting in February of 2018 and agreed that it was approved that all applications be made available. Mayor Gisser commented that his recollection of the term ‘application’ referred to those that were specifically being presented to the boards. Ms. Zimmerman and Ms. Brown both confirmed that the request being made during the February 2018 meeting specifically was to add demolitions to the ordinance.
A discussion ensued as to the current review period of demolition applications to which it was made known that there is a 20 day review period. Ms. Saharko commented that Chester Borough, Mendham Borough, and Harding Township have specific language in their ordinances regarding demolition. Mayor Gisser pointed out that those towns have specific historic districts with specific historic rules. The HPC members confirmed that they are only seeking an advisory capacity. Ms. Neibart recommended that there be a system whereby homeowners be alerted to the historical nature of the home they intend to purchase. Ms. Saharko added that having a database of historic homes would be helpful. Mr. Monaghan asked for an explanation of the HPC process to which Ms. Brown explained the committee usually visits the property as a team.

Mayor Gisser recommended that the township attorney review the ordinance to determine if it reflects what was discussed and established at the meeting in question before any further determination is made, and what the process would be if there is a change in current procedure.

Ms. Bonanno asked if providing building permit information would be considered a violation of personal information to which the attorney noted that this information is already considered public.

Ms. Bonanno provided an update on the Brookside Beach. The majority of permits have been attained but one is still pending. Dave Read is prepping the beach area in anticipation of the dredging.

Ms. Fornaro provided an update on the Mosle demolition bid which has a deadline of May 22nd. A few contractors attended a walkthrough of the property and there are about 20 contractors who have picked up the bid information. The recycling and garbage bid has a deadline of July 9th.

Mayor Gisser reported on the recent auditor report. The auditors noted a decline in revenue due to the fact that residents have not renewed their annual central alarm system fee. Mayor Gisser said that automatic payment options are being reviewed as well as electronic reminders. He added that cat and dog registration fees are also in arrears and residents are reminded to get current with registration.

Several committee members are working on the siren issue.

Ms. Duarte reported on the success of the Environmental Commission’s composting workshop and the Recreation Department’s Girls Night Out. The student representatives who are on HPC, Recreation and Environmental Commission reported that they had positive experiences on each committee. She added that she had a meeting with the fire chiefs regarding the siren issue.

Ms. Neibart reported that the next shared services meeting is in the last week of May. They will discuss recreation, the courts, as well as field use for the sports teams. She will be doing a tree survey with Brian Hays so she welcomes questions regarding the emerald ash problem.

Mr. Monaghan has been working on the siren issue and getting close to a potential solution. Work is ongoing at the beach and Pitney by the DPW.

Mayor Gisser reported that as far as the budget is concerned the township is on target, with being a little light on revenue from the construction code side.

**OPEN TO THE PUBLIC**

Ryan Guthrie – 28 Cold Hill Road- Mr. Guthrie thanked the Police department for a successful fishing derby. He questioned whether the wood in the barn at Pitney could be obtained from the contractor. Mayor Gisser responded that the owner and vendor are coordinating salvaging the wood and the township will be getting benches made from the wood. Mr. Guthrie asked when the fish will be transported to which Ms. Bonanno responded that it will depend on when the last permit is obtained.

Ms. Duarte mentioned the Cops and Cones event which will take place on May 23rd.
Tom Baio - 21 Northgate Road - Mr. Baio cautioned the township regarding legislative over-reach with respect to the HPC and demolition permits. It can have the effect that houses cannot be sold because prospective owners are afraid of the regulatory process.

Diana Orban Brown – Ironia Road – Ms. Orban Brown commented that there was a lot of publicity regarding renewal of dog and cat licenses but not for the alarm permits. She suggested that a notification be sent to anyone who signed up in 2015. Mayor Gisser responded that there is an insert reminder in the tax bill.

Ms. Orban Brown expressed concern about the HPC ordinance if it will require that small construction jobs be submitted initially to a committee.

Mayor Gisser entertained a motion to close public comment.
