Hi David,

You did some good digging! Yes, rereading those sections I stand corrected. If your work falls in the active recreation area only then the written approval is not required by the conservation restriction.

Best,
Angela

Hi Angela,

I did a bit more research.

I do NOT believe we are required to obtain the DEP permit for moving soil.

https://www.mendhamtownship.org/sites/g/files/vyhli7531/f/pages/docr_-_dep.pdf

This is the DOCR with the DEP as it pertains to the Subject Area. The subject area is less the active recreation area and EIFP area.

Let me know if you think this is correct.

Thanks,
David

Dear Mr. Guida,

My name is Angela Mostwill. I am a Watershed Protection Specialist with the New Jersey Water Supply Authority assigned to monitor properties where the Authority has an ownership interest. We were recently contacted by a concerned neighbor regarding the proposed Mosle Field Improvements. As a joint owner with 20% stake in the property, I thought it best to reach out to you directly to address any issue of potential concern. Please see the attached letter. I look forward to discussing this with you further.

Sincerely,
Angela

Angela Mostwill
